

Recorded Date	Who are you evaluating?	Please Choose One Topic	How would you describe the fellow's interaction with patients and caregivers? *	Which of the following category best identifies the fellow's ability to manage unstable patients?	Comments	Your Name:
10/2/2018 8:17	Sumeet Soni	Communication with Families	Identifies and incorporates patient preference in shared decision-making in complex patient care conversations		Readily engages family with discussions. Could improve on asking family members for feedback to ensure understanding.	Wells
10/28/2018 6:38	Sumeet Soni	Management of Unstable Patients		Demonstrates ability to create and verbalize future treatment plan for variety of responses from initial treatment plan	Very impressed with Sumeet during her TLC call. Admitted several unstable patients and evaluated/treated all appropriately. One in particular was complex/complicated and she recognized immediately some subtle findings and planned accordingly.	Amy Malik
