

Start Date	Who are you evaluating?	Please Choose One Topic	How would you describe the fellow's ability to receive feedback and incorporate into their practice?	What type of procedure	Which best describes the fellow's aptitude for performing the procedure selected?	Which of the following category best identifies the fellow's ability to manage unstable patients?	Comments	Your Name:
10/26/2018 14:41	Yaoli Yang	Invasive Procedures		Endotracheal intubation	At expectations for level of training		Very well prepared pre-procedure. Technically sound, only suggestion was to make sure you have a very good airway view prior to insertion of the ET tube.	Amy Malik
10/26/2018 14:58	Yaoli Yang	Management of Unstable Patients				Independently accomplishes common necessary cares and demonstrates ability to adjust plan based on patient response	Very appropriate assessment/stabilization/plan of care on admissions	Amy Malik
